Culture of Sewing

TEXI is a complete solution for fashion, upholstery or leather ateliers. For sewing enthusiasts we also offer our support and advice.

TEXI's product portfolio includes industrial sewing machines and home sewing machines, ironing devices, labeling and sewing accessories.

Founded in 2011 as an answer to customer demand for energy saving, silent and user-friendly machines. TEXI today is distributed in more than 100 countries all over the world. We are part of high-class fashion and promotional events such as Project Runway and Art and Fashion Forum for promising talents.

texi Cutting machines

TEXI SIRIUS-P 1390

CO₂ plotter for cutting and engraving. A laser device for cutting and marking fabrics, wood, plastic, plexiglass, rubber, glass and ceramics.

PRICE & INFO

CO ₂ laser power	130 W
Working area	1300 x 900 mm
Standard lens	2"
Cutting speed	0 - 600 mm/sek
Engraving speed	0 - 1060 mm/sek
Positioning accuracy	+/- 0,05 mm
Cooling	Water
Smoke extraction system	Turbine
Table type	Honeycomb and ribbed
Table height adjustment	Electronic
Control panel	3" LCD panel Motors: AC SERVO
Supported image file formats	PLT, AI, DXF, DST, BMP, JPG, etc.
Additional options	Rotary attachment, 3" lens (for cutting thicker materials materials)

TEXI XYZ 2517

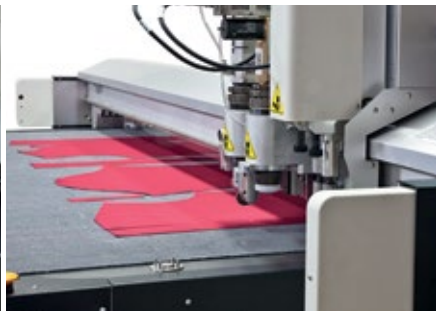

Modern single-layer cutter with conveyor system designed for automatic cutting of fabrics, synthetic materials, technical fabrics, leather and other materials.

PRICE & INFO

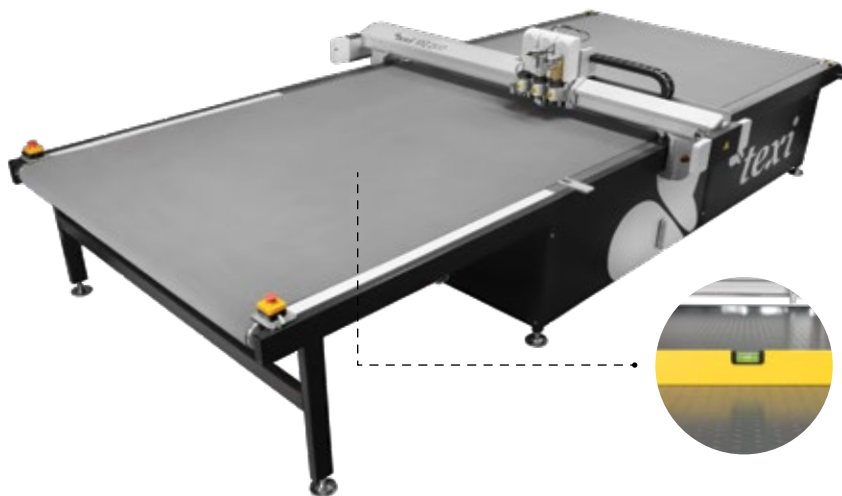

Working area	2 500 x 1 700 mm
Device dimensions	3 350 x 2 550 mm
The minimum width of the wall opening through which the device can be installed in the factory	2 600 mm with bridge / 2 150 mm without bridge
Width and length of the material feeder with motor	2 170 mm / 1 100 mm
Total length of the device with the installed feeder	5 520 mm + 600 mm computer / min. 6m
Maximum cutting speed	1500 mm/s
Cutting accuracy	to 0,1 mm
Maximum cutting thickness	to 50 mm
Engines	AC Servo
Turbine power	7,5 kW
Total device power	9 kW
Power supply	400 V, 3 phases
Software language	English
File handling	PLT/HPGL, DXF, PDF

Accessories for a cutter

TEXI XYZ 2517 TABLE

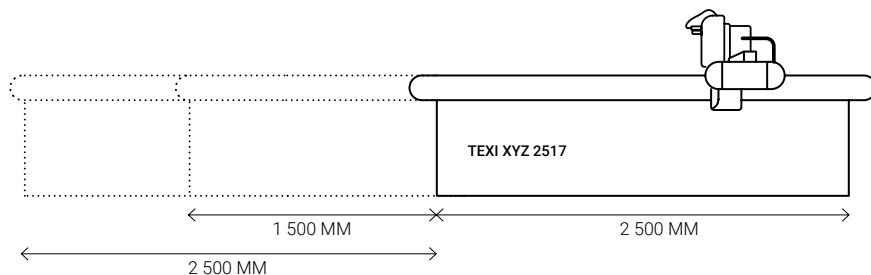

The receiving table allows the cutter to operate continuously – without any downtime for removing cut pieces. The operator gains additional workspace, and the transfer and sorting of material proceeds smoothly without interrupting the cutter's operation.

Receiving table:

TEXI XYZ 2517 TABLE 1500MM – increases efficiency by up to 20%

TEXI XYZ 2517 TABLE 2500MM – increases efficiency by up to 30%

TEXI FLOW

Automatic feeder

- Max. material beam diameter: 400 mm
- Max. material beam width: 1800 mm
- Correction accuracy: 5 mm
- Maximum bearing load: 80 kg
- Max. feed speed: 350 mm/s

Edge detection sensor – thanks to automatic path correction, you don't need to worry about keeping the cutting edge

Quick roll change – the first machine with such a fast and intuitive roll change system for the material

PRICE & INFO

TEXI XYZ 2517 CBC

Conveyor belt cleaning device. Keeps the conveyor belt clean, thereby reducing maintenance time to a minimum. Less work for staff and greater productivity. Even when working with difficult materials, fibre residue and debris from cutting are minimal, which is particularly important when changing material colours.

texi Cabinet for 2 machines

TEXI SESAME DUO

Folding cabinet for 2 sewing machines

A tailor's workshop in one closet?
Markers, scissors, rulers, buttonhole cutters, pins, needles, thread, tweezers, bobbins, feet, wires and other sewing accessories in one place. And most importantly - machine and overlock too. You push on the board and the sewing machine appears from under the work table as if by magic, and with one movement of your hand you slide out the shelf with the overlocker. When you're done, close it three times and you've got everything organized in a locked cabinet.

See the cabinet in action

SYSTEM MATIC

Check what holder you have in your machine. Measure the height, from the bottom of the foot, to the screw that secures the handle to the needle bar. If the distance is about 1.5 cm, it means that we have a low type of foot mounting in our machine. The vast majority of household machines have this type of handle. If the distance from the bottom of the mounted foot to the screw is approximately 2.5 cm, it is a high foot mount.

PRICE & INFO

ADJUSTABLE ANGLE

The ironing board angle can be adjusted, horizontally, vertically or at an setangle

Shoulder-shaped IRONING BOARD

STEAM HEAD

Triangular shape to access any corner of clothes

TELESCOPIC POLE

to meet your comfortable height

WATER TANK with a capacity of 2.9 L

- Extended working time – a 2.9 L water tank delivers up to 72 minutes of continuous steaming, almost 3 times longer than many competitors.
- 2450 W power and 5.5 bar steam pressure – ensure a strong, consistent steam flow (40–100 g/min) that smooths even thick fabrics and stubborn wrinkles.
- Professional build quality – titanium-aluminium alloy boiler and PA6+PA66 aluminium steam head for even heat distribution and long durability.
- Comfort & ergonomics – adjustable aluminium telescopic pole, large shoulder-shaped ironing board and ergonomic handle for effortless use.
- Mobility & stability – heavy base with casters for easy movement and safe operation.
- Safety first – protection system, water shortage alarm and automatic shut-off for worry-free steaming.
